CB friends and family,

As friends and colleagues for the last 14 years, we’re writing you together to reflect both on the last school year and on past and future seasons here at College Bound. Scott’s decade of leadership as College Bound’s first Executive Director is coming to a close at the end of the year, and Jenny began service as Interim Executive Director this month.

Neither of us is known for sugarcoating: The 2021-22 school year was a fitful one for education, and College Bound was not exempt from the starts, pauses, restarts, and churn experienced in most every industry. But none of our work includes stopping. We’ve been defined by persistence since the beginning, and the brightness you’ll see in the pages to come always shines through.

Our mission is perceived cyclically like the seasons as well. When Lisa Orden Zarin founded College Bound in 2006, college access was the star of the nonprofit class, and she raised the bar to include college completion. Today, you can find a dozen articles a day questioning the value of a college degree despite mountains of data and peer-reviewed studies illustrating its life-changing impact on families experiencing poverty. Does everyone need higher education? No. But College Bound students do, and there are more like them in our region we are called to reach – and not only because they deserve it. St. Louis is hurting for talent. Communities are aching under the weight of generational poverty and segregation. An educated and engaged citizenry is a requirement for a functional democracy.

One of Scott’s defining characteristics as a leader is his persistent desire to reach for more. He will never be satisfied and that has served our organization and our region. We have a fully fledged program at St. Louis Community College, a pilot at Ranken, and a team staffed by experienced educators and mental health professionals designed to ensure our work and results are repeatable. And we have you: Supporters and partners who have kept our financial footing strong even as everything else has felt unpredictable.

We also have a mandate to grow, to improve, and to endure through challenges foreseeable and otherwise. Jenny is eager to carry the Board’s strategic plan forward in partnership with the team, students, alumni, and CB community.

Leading this mission and walking alongside our students and their families on these critical journeys is an honor and a privilege. Thank you for sharing in our belief and being part of this mighty cause.

In gratitude,

Jenny Weber
Interim Executive Director

Scott Baier
Outgoing President & CEO
MISSION

Through an individualized, holistic, and multi-year commitment, College Bound empowers students from disadvantaged backgrounds to complete higher education and enter successful careers.

NORTH STAR GOALS

TO & THROUGH PROGRAM

65% of CB students will complete higher education with a bachelor’s degree within six years of high school graduation.

CB@STLCC PROGRAM

40% of CB@STLCC students will complete either an associate degree or other high-quality credential or certificate within four years of starting at St. Louis Community College.

DEBT

CB students receiving their degrees will have less debt than the national average for graduates (currently $28,950) and will be on a path to career-relevant employment.

"At his core, Scott is driven by a strong belief in others’ ability to reach their full potential."

- MARILYN DREDGE
  CB Board Chair

"I knew at the time we’d hired a rock star. He doubled the size of our original program, and he started a new one with St. Louis Community College that has all the same hallmarks – it’s innovative, bold, and dearly needed here.

As we were wrapping up our transition, I remember so clearly him saying ‘I got this’ - and I’m so glad he did.”

- LISA ORDEN ZARIN
  CB Founder

</table>
CB → TO & THROUGH PROGRAM

OVERVIEW:
To & Through is our full-service, 7-9 year program. Students in To & Through join the summer before 10th grade and remain with us through college graduation. This commitment is the core of the CB difference. During the 2021-22 school year, we served 540 students.

Of these students:
89% qualify for the federal free and reduced lunch program.
90% will be the first in their families with a bachelor’s degree.
100% are committed to obtaining their college degree.

ACADEMICS

In St. Louis, 47% of students are performing at grade level in English; 36% in math.

Beginning in 10th grade, College Bound students are assessed academically so that coaches can identify where each student is on their high school journey and what they need to focus on.

Students receive:
• Suplemental math and reading help.
• Individualized ACT strategy and instruction.
• Unfettered access to tutoring.

ACADEMICS + COLLEGE KNOWLEDGE

MENTAL HEALTH SERVICES
DEBT REDUCTION
COLLEGE COMPLETION

Mino is getting ready to start his second year at the University of Missouri-St. Louis pursuing a degree in business administration with a minor in marketing.

He works with his dad in construction and is learning to remodel houses with his uncle.

DID YOU KNOW? 16% of students from the lowest income quartile complete a bachelor’s degree, compared to 62% from the highest income quartile.

Succeeding in college isn’t just about academics. CB’s focus on college knowledge helps students prepare for the demands of higher education by:

• Developing good academic habits and study strategies.
• Visiting college campuses.
• Mastering self-monitoring skills.
• Nurturing social and emotional maturity.
• Completing college-level work while still in high school.
• Working with coaches to select and apply for best-fit colleges.
CBSI

The Bayer Fund College Bound Summer Institute (CBSI) gives students the opportunity to learn on the UMSL campus while earning transferable college credit during the summers before 11th and 12th grades. Students can earn up to six transferable credits – for free!

DEBT REDUCTION

College is more important and less affordable than ever before. College graduates with student loan debt often settle for lower-paying, lower-skill jobs just to be able to begin paying loan bills immediately after graduation.

Families earning $30,000 or less would need to spend 77% of their income to cover the net price at public four-year colleges, more than double the burden placed on any other income group. More than 50% of CB students live in households that earn less than $28,000 for a family of four; 40% of our families earn less than $20,000/year.

HOW ARE WE DOING?

Through scholarship identification, assistance with financial gaps, and access to safety net funding, we make sure students have the resources they need to remain on a path to on-time graduation.

47% of CB collegians are on track to graduate with zero debt.

An additional 43% are on track to graduate with debt below the national average (currently $28,950).

MENTAL HEALTH SERVICES

When our first class entered college, issues related to stress, anxiety, and past trauma led to student crises, stop-outs, and drop-outs. We knew then that our holistic approach to college success had to include services related to students’ mental health and well-being.

Our Mental Health Services team includes three full-time mental health professionals who provide the behavioral health interventions necessary to strengthen students’ coping and resiliency skills.

DID YOU KNOW? The need for services has increased since the beginning of the pandemic. Referrals are up more than 100% since March 2020 and our team continues to provide immediate crisis support, therapeutic interventions, and case management referrals.

EMOTIONAL LEARNING:

During 10th & 11th grade, our MHS team facilitates Social and Emotional Learning (SEL) sessions. It’s woven into the curriculum and topics include responsible decision making, self-awareness, and relationship building.

To & Through students, like Journey, begin the program as 10th graders.

Journey is interested in a career in architectural engineering and is an alum of the Redbird Rookies program.

FUN FACT:

College Bound has been partnering with Redbird Rookies since 2008.

COLLEGE COMPLETION

In the middle of 12th grade, students begin to work with our College Completion coaches to ease the transition into the second phase of our program. Our coaches are advisors, mentors, and advocates.

Our collegiate team provides:

- Advice on course selection.
- Debt management support and guidance.
- Planning for that college degree and the career that follows.
- Emergency student aid.
- A shoulder to lean on and a listening ear.
- Support when the going gets tough.

HOW ARE WE DOING?

Since 2006, CB students graduate college at five times the rate of their economically disadvantaged peers.

- 300+ bachelor's degrees have been awarded
- Average degree completion = 4.7 years

"College Bound gave me a perspective about college that I didn’t have at first. I knew I wanted to go to college but the process of it was a blur to me. CB made that more realistic.

I learned so much that I can use on a daily basis. I met amazing individuals and made good connections. CB provided me an opportunity at a law firm – something I never imagined I would get. I wish there was a program for graduate school!"

- MAYA
CB Class of 2017
Southeast Missouri State University

"I REALLLLLLY ENJOYED MYSELF like I can't even explain. I looked good, I felt good, and did I mention I looked really good!?"

- XIOMARE
CB Class of 2023

"I enjoyed being able to get great advice from people and learn about the journey they had to take to get to where they are at today."

- JERAMAYA
CB Class of 2021

NETWORKING COMMUNITY

In June we held the inaugural CB Career Connect networking event at Algonquin Country Club.

Twenty-two students learned about and from twenty inspiring professionals from various St. Louis industries. By all accounts the event was a success and we look forward to making many more connections!
The role of community colleges in higher education has expanded in recent years. From offering a low-cost gateway to higher education to bolstering local economic development, community colleges enroll nearly half of all college students across the country. CB on Campus programs reach students using community college as a steppingstone to a bachelor’s degree, as well as those with career interests more aligned to a 2-year credential. On Campus students join as first-year students. Most are balancing school, work, and family responsibilities and therefore enroll part-time.

WHERE ARE WE HEADED?
We’ve added a North Star goal to raise the graduation rate for CB students at STLCC to 40% by 2026. Currently, fewer than 7% of first-generation students from low-income backgrounds graduate within four years of enrollment.

A TYPICAL CB@STLCC STUDENT:
- Completes 60 credit hours toward AA or transfer degree
- Attends STLCC at little or no cost.
- Balances school, work, and family responsibilities
- Saves $20,000 in tuition in pursuit of a 4-year degree

CB@STLCC is:
- Entering our fifth year on campus.
- Proud to have served 100 students during the 2021-22 school year.
- Excited to have a full-time staff on campus.

HOW ARE WE DOING?
We have cheered on 32 CB@STLCC graduates since the beginning of the program.

FUN FACT:
STLCC’s mascot is a fox named Archie to cheer on the STLCC Archers!

CB@RANKEN PILOT
Last fall, after a year of research and conversation, we began piloting a program on the campus of Ranken Technical College (RTC). The CB@Ranken pilot is entering its second year thanks to the generous support of the Enterprise Holdings Foundation.

This summer, we hired Kelly Small to manage the program. She is a graduate of University City High School and the University of Missouri-St. Louis. In addition, Kelly is both a CB alum AND served as an AmeriCorps member at College Bound. We are excited about her role in leading the pilot and helping determine its future.
100% of students in CB’s Class of 2022 graduated from high school.

92% of the CB Class of 2021 matriculated to college within six months of graduation.

50% of CB collegians graduate college within 6 years; an additional 5% take more than 6 years to graduate.

80% of those graduates cross the finish line in 3-5 years.

47% of CB collegians are projected to have zero debt upon graduation.

THE NEXT GENERATION: ATTENDANCE

This past year, we surveyed our CB alumni.

• We asked 81 alums that have children: How likely do you feel that your child(ren) will be able to attend college?

• The results: 72% Very Likely; 21.5% Likely; 5.1% Neutral; and 1.3% Not Likely.

• And: 60% have already begun saving money for their child(ren)’s college education!

“My experience with College Bound was pivotal in my success in college. The ACT prep I received drastically increased my ACT scores, which aided in me being accepted to the honors program at Howard University and helped me secure a full scholarship.

My senior year I had a coach who attended Howard University and was able to help me with my application and essay and give me tips about Howard from a former student.”

DID YOU KNOW?
Board member Julie Stern’s family has been involved with CB since it began in 2006.
Over 40% of Board members are the first in their families to graduate from college.

Todd Kaye has been emceeing Trivia Night since 2018.
Finally back in person after two VERY LONG years, Cap & Gown 2022 was held at The Four Seasons Hotel St. Louis on a beautiful Saturday night in June.

Three hundred and seventy-five guests joined our co-chairs and emcee Brian Henry for a night of generous giving, celebration, and connection.

For those unable to attend the night of, Latrice and Orvin Kimbrough hosted a speaker preview reception at Bellerive Country Club a few weeks before the event. Our speakers had the opportunity to polish their delivery before the big day and supporters were able to hear their inspiring stories – with a little time to mingle afterwards.

We were honored to hear from two alumni, Dr. Na’Nette Ashford and Russell Brannen, and recent graduates Kelsi Bryant and Elyse Luecke.

Together, we raised over $845,000 and counting!

SAVE THE DATE! Saturday, June 10, 2023

"College Bound doesn’t just solve problems when they come up. It helps prevent them altogether."

LATRIECE & ORVIN KIMBROUGH

"College Bound is a steady hand guiding each student on a unique and often all too challenging path."

KIM & BRIAN SEIZ

"The CB community is helping Missouri State uphold our mission to empower our students to see the world differently and to follow their paths with integrity."

GAIL & CLIF SMART
We are continuously humbled by the intentional generosity of our community and we are filled with gratitude to welcome new donors.

The following reflects gifts received between Jan. 1, 2021 - Dec. 31, 2021:

On November 13th, we held our 5th Annual Trivia Night. We were thrilled to be back in-person and grateful to our presenting sponsor, CREATE A LOOP, for yet another fantastic event. Board member and reigning emcee champion of the world, Todd Kaye, treated 150 competitors to eight rounds of questions about ancient history, pop culture and everything in between. Many thanks to all who participated. We can't wait to see you again this year!

We raised $43,000, our most successful Trivia Night yet!
